TECHNICAL REPORT
22-0035-MBT-TR-60

Test Subject: Corrosion tests in artificial atmosphere
Salt spray tests: ISO 9227 (ASTM)

TEST DETAILS

Date and Location of Test: Between 26/12/2021 and 02/01/2022
Mobilité Laboratory
General Road, Zona Suroeste No.1508B,
Pinar del Rio

Sample entry date: 28/12/2021

Machine Type Approval Engineer: SJD-Celen Huelmo, Vagner Akay

Manufacturer's Representative: No attendance

Reason for Test: Only test report for monitoring purposes

MANUFACTURER DETAILS

Manufacturer's Name: OJO GUANO ARROSAJALAR S.A. (SOCIETAT) LIMITADA (SARCAET)

Manufacturer's Address: Ramon y Cajal, 10000 Pinar del Rio, Cuba

Product: Product 1: Line Koro Huelmo / Line Square Tower Holder (LHC-C 1014) and Product 2: Ojo Huelmo Huelmo / Ojo Ring Tower Holder (ORT-C 1014)

Base Material: 100 % Steel (declared by manufacturer)

TEST SPECIFICATION

This report is only for monitoring and the report prepared on customer request.

One sample of Line Square Tower Holder (LHC-C 1014) and one sample of Ojo Ring Tower Holder (ORT-C 1014) are tested according to ISO 9227 conditions specified below. These both products (materials and T) is same city that subject test allowed.

Test Conditions:

Test Name: NSS (Neutral salt spray)

Test Temperature: 35 ± 2 °C

Solution: sodium chloride 50g/l

pH of the collected Solution: 6,5-7,2

Volume of the collected Solution: 1,5 ± 0,5 ml/h

Concentration of sodium chloride (collected solution): 50 ± 5 g/l

Salt Type and Purity: 99% for SSP

Water Type and Purity: Pure water < 20 µS/cm

The Specific Gravity Range: 1,020 to 1,030 at 20 °C

Duration of Test: 96 hours

Control Period: The test samples will be controlled every 12 hours.

General Specifications of Samples:

Product 1: Line Koro Huelmo / Line Square Tower Holder (LHC-C 1014)
Dimensions: Height: 21 cm, Width: 10 cm, Depth: 40,5 cm
Shape: Must Ring Tower Ring

Material and area of the surface: Metal (Steel) - Coated - Smooth - Shiny

Accreditation numbers under EN 17020 EN 17025 AA 102 TL 628

Test Conditions and Results

Test Name: NSS (Neutral salt spray)

Test Temperature: 35 ± 2 °C

Solution: sodium chloride 50g/l

pH of the test solution: 6,5-7,2

pH of the collected Solution: 6,5-7,2

Volume of the collected Solution: 1,5 ± 0,5 ml/h

Concentration of sodium chloride (collected solution): 50 ± 5 g/l

Water Type and Purity: Pure water 11 µS/cm

The Specific Gravity: 1,020 to 1,030 at 20 °C

Test Angle: 15° to 20°

Duration of Test: 96 hours

Test Requirement: (Monitoring purposes for assessment of the corrosion resistance)

Before the Test: (The test samples are prepared by the customer and checked with salt piece of each surface testing)

Physical Appearance: No physical deformation has observed on the test samples.

Functional Assessment: Not applicable.

During the Test: (The test samples were controlled every 12 hours)

Physical Appearance: (Freshly after 96 hours test not observed on the back side on the mounting place of the Line Koro Huelmo / Line Square Tower Holder (LHC-C 1014) sample as showed in the test photos below. The corrosion where are indicated with red line in the photos)

No rust coating or deformation was observed on the Ojo Huelmo Huelmo / Ojo Ring Tower Holder (ORT-C 1014)

Accreditation numbers under EN 17020 EN 17025 AA 102 TL 628

Technical Report Number: 22-0038-MBT-TR-60

After the Test

After 96 hours test completed. The test samples were removed from the test cabinet and left to dry for 1 hour. Then it is gently rinsed under tap water at a temperature not exceeding 50 °C and then brought it immediately to a clean of an oil or grease-free surface. The test samples were controlled every 12 hours.

Physical Appearance: (No rust coating or deformation was observed on the Ojo Huelmo Huelmo / Ojo Ring Tower Holder (ORT-C 1014) test sample during the whole test as showed in the test photos below)

Functional Assessment: Not applicable.

A high-angle, close-up photograph of a modern bathroom shower tray. The tray is made of a light-colored, textured material, possibly stone or composite, with a chrome showerhead on the left and a chrome drain on the right. A chrome soap dish is mounted on the tray, containing a clear bottle of liquid soap. The lighting is dramatic, highlighting the metallic surfaces and the texture of the tray.
